CONSENT TO PROCEED

- I authorize James D. Lund, D.D.S. and/or such associate(s) or assistant(s), as he/she may designate, to perform necessary procedures to maintain my dental health or the dental health of any minor or other individual(s) for whom I have responsibility. These procedures include, but are not limited to, arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s), including those related to restorative, palliative, therapeutic or surgical treatments.
- I understand that the administration of local anesthetic may cause an untoward reaction or side effect(s), which may include but are not limited to: bruising, hematoma, cardiac stimulation, temporary or permanent numbness, and muscle soreness. I understand that on rare occasion(s) needles break and surgical retrieval may be required.
- I understand that as part of dental treatment, including preventive procedures such as hygiene cleanings and basic dentistry including restorations of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. After lengthy appointments, jaw muscles may also be sore or tender. Gums and surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek(s), or other oral tissue to be inadvertently abraded or lacerated (cut) during routine dental procedures. In some cases sutures or additional treatment may be required.
- I understand that as part of dental treatment items including, but not limited to, crowns, small dental instruments, drill components, etc. may be aspirated (inhaled into the respiratory system) or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may, in rare cases, require bronchoscopy or other procedures to ensure safe removal.
- I do voluntarily assume all possible risks, including the risk of substantial and serious harm, if any, which may be associated with general preventive and operative treatment procedures in hopes of obtaining the potential desired results, which may or may not be achieved, for my benefit or the benefit of my minor child(ren). I acknowledge that the nature and purpose of the foregoing procedures have been explained to me and I have been given the opportunity to ask questions.
